

Use the Red Cross **only** in a Medical Emergency. If a Red Cross is shown, following competitors must stop and render aid. If a vehicle is stopped and unable to continue and no medical aid is required, display the OK sign to following competitors.

When a vehicle is stopped, a warning safety triangle **must** immediately be placed on the same side of the road as the stopped vehicle, facing oncoming rally traffic, at a sufficient distance to give ample warning to oncoming competitors. If no triangle or OK sign is displayed, competitors must stop until the safety of the occupants of the stopped vehicle can be ascertained, and the set-up of the stopped vehicle's triangle has started.
